EVENTS & PRIVATE DINING AT SUSHISAMBA

Beating at the heart of every **SUSHI**SAMBA is a deep appreciation for enjoying life with friends, colleagues and loved ones.

Be taken onto a multi-dimensional and multi-sensory dining experience while immersing in culture and cuisine of Japan, Brazil and Peru under one roof.

Our dedicated events team have a wealth of experience in curating a wide range of events; from corporate functions and product launches to birthday parties, bespoke tasting experiences and signature sushi and seviche masterclasses.

Known for our inventive dishes and artful presentations, specially curated cocktail program and deep commitment to guests experience, you can be rest assured that whatever the occasion your guests will enjoy an unforgettable event.

We welcome you... Bem-vindo!

CUISINE

The energy of three nations meets at **SUSHI**SAMBA Milano.

SUSHISAMBA Milano's kitchen is led by the Culinary Director Chef Kyung Soo Moon and the menu showcases the brand's culinary creativity which eloquently blends Japanese, Brazilian and Peruvian cuisines. Committed to providing the most authentic dining experience, the majority of the seafood and fish at **SUSHI**SAMBA Milano is flown in from Japan.

SUSHISAMBA Milano is located on the 1st floor of the iconic Torre Velasca, in the heart of Milan. Torre Velasca represents one of the most iconic landmarks in the heart of Milan and has unique historical and architectural significance for the City of Milan and Italy. Built between 1956 and 1958 by the prestigious Studio BBPR (Banfi, Belgioioso, Peressutti, and Rogers) architectural partnership, Torre Velasca is located on the Piazza Velasca, in the city's historical city center near the Duomo Cathedral.

More than a historical skyscraper, Torre Velasca is a unique asset in the urban planning world and is protected by the Heritage Authority. It has always been a symbol of the Milan skyline and of contemporary architecture. With its 28 floors rising to a height of 106 meters and its characteristic mushroom shape, it is one of the most important post-war architectural works, combining tradition and innovation, past and present.

Designed by Asti Architetti, the renovation plan includes the restoration of the original exteriors to maintain the iconic façade. The interiors will be divided into different, dedicated, modern and dynamic functionals areas focusing on interaction, cultural exchange, and personal wellbeing, reinterpreting the local community's evolving needs.
